

DECLARATION OF COMPLIANCE WITH FOOD CONTACT LEGISLATION

1. Company Identification

We, Digmesa AG, Keltenstrasse 31, 2563 Ipsach, Switzerland, declare that the article and materials thereof described hereunder and assembled at our headquarters and manufacturing site at once in Switzerland are compliant with the corresponding food contact requirements listed in the present document.

2. Description of the article

Commercial name: Flowmeter Nano Brass

Item numbers: 9NB-xxxx/xxx

with x for digits from 1 to 9

Description: The Flow Sensor nano is a general-purpose device. It is employed for measuring, regulating or metering and guarantees most precise measurement of fluid quantities. In addition, a pulse generator integrated into the flowmeter guarantees a practically unlimited useful life.

Picture of the article:

⊠ n/a

This declaration of compliance has been established in respect of the following:

- □ Declarations by suppliers of raw materials
- Overall Migration testing

□ Not applicable

Flowmeter part	Simulants	Time	Temperature
Impeller cage	Distilled water, 3% acetic acid and sunflower oil	24 hours	40 ° C
Turbine / Impeller	Distilled water	2 hours	70 °C

Assessment of non-listed substances - A	Article 6 of (EU) Regulation N $^\circ$ $^\circ$	10/2011
---	--	---------

⊠ Not applicable	
☐ Risk assessment (article 19	of (EU) Regulation N° 10/2011):
☐ If not, list substances and in	formation relevant to the risk assessment
Nom	Identification CAS - EINECS - N° de Référence MCDA
-	(B)

Assessment of non-intentionally added substances (NIAS):

☐ Risk assessment (article 19 of (EU) Regulation N°	10/2011): only performed for PVDF
Solef.	

☑ If not, list substances and information relevant to the risk assessment

Nom	Identification CAS - EINECS - N° de Réf. MCDA
-	

Creation: S.Reuge Revision: S. Reuge Approval: S.Schneider Datum: 16.12.2019 Datum: 08.02.2022 Version: 3

Filing: T:\Zulassungs-Zertifikate\Food Contact Compliance_Weltweit\2019.12_Nano brass_Erweiterte Konformitätserklärung für Lebenmsittelkontakt\DoC Food contact_Nano Brass_02.2022_v3.docx

4. Information on substances with restrictions

List of substance(s) subject to restriction and migration limits according to Regulation 10/2011/EC:

FCM No. (10/2011 /EC)	CAS No.	Name	Limits (mg/kg)	A*	W*	C*	M*
132	75-38-7	Vinylidene fluoride	5.0	х			
201	102-09-0	Diphenyl carbonate	0.05	х			
295	123-31-9	1,4-dihydroxybenzene	0.6	х		х	
313	127-63-9	diphenyl sulphone	3.0	х		х	
337	345-92-6	4,4'-difluorobenzophenone	0.05	х		х	

^{*} Compliance with these limits was established by Analysis (A), Worst case (W), Calculation (C) or Modelling (M).

Migration tests were performed on another part than the one mentioned in this document but with identic plastics type and formulation. Calculations showed that the weight / food contact surface ratio of the present mentioned plastic part is comparable to the samples tested and therefore acceptable to guarantee the compliance.

In the case of tests, specify the simulant(s) and test conditions:

Flowmeter part	Simulants	Time	Temperature
Impeller cage	Distilled water, ethanol and oil	24 hours	40 °C
Turbine / Impeller	Distilled water	24 hours	40 °C

If not completed, specify reasons - refer to reference documents:

Migration testing of not disclosed substances with restrictions in Victrex will be ordered in the third quarter of 20201.

List of substance(s) subject to restriction but without migration limits according to Regulation 10/2011/EC:

FCM No. (10/2011/ EC)	CAS No.	Name
n/a	+	none

List of additives having multiple function after Regulation 10/2011/EC (e.g. food additive and packaging additive):

E number	Name of Additive	Generic FCM No. (10/2011/EC)
E339	Sodium phosphates	509

Please note, that this declaration replaces the precedent versions of it.

By observing the above requirements, we have fulfilled our duty of care regarding the compliance of the product we supply.

This declaration is valid on condition that there is no modification of material composition, that its intended use has not changed and in the absence of significant regulatory changes. "The DGGCRF (French Directorate General for Competition, Consumer Affairs and Prevention of Fraud) suggests a maximum duration of 5 years for the validity period of the test reports; if changes that may cause a change in the inertness of the material have occurred during this period, the tests must be repeated." 2

Compliance is understood to be subject to compliance with the conditions of storage, handling and use, taking into account the specific characteristics of the material or item, and the conditions such as prescribed by professional practices or codes.

In the event of changes to the nature of the packaged product, its composition or its intended use, as well as in the event of a change in the conditions for using the material or the item, the person for whom this declaration is intended must ensure the compatibility packaging / content for which s/he then accepts responsibility.
